

## Course Schedule

### Adobe Illustrator

#### Adobe Illustrator CC - Part 1 / (CALL) / Days: 2

This course covers the Graphic Design & Illustration Using Adobe Illustrator CC objectives to help students prepare for the Adobe Certified Associate (ACA) exam. This course is also designed to cover the Adobe Certified Expert (ACE) exam objectives. This course may earn a Credly Badge.

12/06 · 12/06/22 **OLL** 10:30 AM - 6:00 PM FRR

#### Adobe Illustrator CC (2019) - Part 2 / 395 / Days: 1

You have created simple artwork by using the basic drawing and painting tools available in Adobe® Illustrator® CC. You now want to use advanced tools, options, and effects to create complex artwork. In addition, you want to ensure that your artwork is ready for commercial printing and also save it for the web. In this course, you will draw complex illustrations and enhance them by using various painting options. You will also use painting tools, manage colors, format type, work with effects, prepare artwork for commercial printing, and prepare graphics for the web.

This course is a great component of your preparation for the Adobe Certified Expert (ACE) Illustrator CC exam and the Adobe Certified Associate (ACA) Graphic Design & Illustration Using Adobe Illustrator exam.

04/26 · 04/26/23 **OLL** 10:30 AM - 6:00 PM FRR

10/19 · 10/19/23 **OLL** 10:30 AM - 6:00 PM FRR

### Adobe InDesign

#### Adobe® InDesign® (2020): Part 1 / 395 / Days: 1

Giving documents a well-designed, professional look will put students a step ahead in the marketplace cluttered with all kinds of communications. Paragraph and character styles that allow students to format pages of text uniformly, layout features that help students to build alternate size configurations of documents, and various panels that enable students to easily customize both text and graphics; Adobe InDesign CC (2019) has all the tools students need to elevate the look of documents and get it out to the people who need to see it, whether it be in print or on the web.

This course is a great component of your preparation for the Adobe Certified Expert (ACE) InDesign CC exam and the Adobe Certified Associate (ACA) Print & Digital Media Publication Using Adobe InDesign exam.

12/07 · 12/07/22 **OLL** 10:30 AM - 6:00 PM FRR

#### Adobe® InDesign® (2020): Part 2 / 395 / Days: 1

In Adobe® InDesign® CC (2019): Part 1 you were introduced to the many features that help you create professional looking documents. Now you need to create much lengthier interactive documents that need to be accessed across a range of devices. In Adobe® InDesign® CC (2019): Part 2, you will learn advanced InDesign techniques to enhance the look and functionality of your documents.

Using Adobe InDesign, you can create interactive documents and export them for viewing in a web browser with various features such as buttons, page transitions, movies and audio files, hyperlinks, and animation. You have the ability to assign color profiles and establish print presets. In creating longer documents, you'll be able to include such features as a table of contents, footnotes, cross-references, and an index.

This course is a great component of your preparation for the Adobe Certified Expert (ACE) InDesign CC exam and the Adobe Certified Associate (ACA) Print & Digital Media Publication Using Adobe InDesign exam.

## Information Security

### Certified Information Systems Security Professional (CISSP) / 3475 / Days: 5

Welcome to Certified Information Systems Security Professional (CISSP®): With your completion of the prerequisites and necessary years of experience, you are firmly grounded in the knowledge requirements of today's security professional. This course will expand upon your knowledge by addressing the essential elements of the eight domains that comprise a Common Body of Knowledge (CBK®) for information systems security professionals. The course offers a job-related approach to the security process, while providing a framework to prepare for CISSP certification.

CISSP is the premier certification for today's information systems security professional. It remains the premier certification because the sponsoring organization, the International Information Systems Security Certification Consortium, Inc. (ISC)²®, regularly updates the test by using subject matter experts (SMEs) to make sure the material and the questions are relevant in today's security environment. By defining eight security domains that comprise a CBK, industry standards for the information systems security professional have been established. The skills and knowledge you gain in this course will help you master the eight CISSP domains and ensure your credibility and success within the information systems security field.

This course may earn a Credly Badge.

### AZ-220T00 Microsoft Azure IoT Developer / 1980 / Days: 4

This course empowers you with the knowledge and skills required to successfully create and maintain the cloud and edge portions of an Azure IoT solution. You will learn the core Azure IoT services, such as IoT Hub, Device Provisioning Services, Azure Stream Analytics, Time Series Insights, and much more. With a focus on Azure PaaS services, this course expands into IoT Edge, device management, monitoring and troubleshooting, security concerns, and Azure IoT Central. This course may earn a Credly Badge.

### DP-050T00 Migrate SQL workloads to Azure / 1060 / Days: 2

In this course, the students will explore the objectives of data platform modernization and how it is suitable for given business requirements. They will also explore each stage of the data platform modernization process and define what tasks are involved at each stage, such as the assessment and planning phase. Students will also learn the available migration tools and how they are suitable for each stage of the data migration process. The student will learn how to migrate to the three target platforms for SQL based workloads; Azure Virtual Machines, Azure SQL Databases and Azure SQL Database Managed Instances. The student will learn the benefits and limitations of each target platform and how they can be used to fulfil both business and technical requirements for modern SQL workloads. The student will explore the changes that may need to be made to existing SQL based applications, so that they can make best use of modern data platforms in Azure.

### DP-203T00 Data Engineering on Microsoft Azure / 1980 / Days: 4

In this course, the student will learn about the data engineering patterns and practices as it pertains to working with batch and real-time analytical solutions using Azure data platform technologies. Students will begin by understanding the core compute and storage technologies that are used to build an analytical solution. They will then explore how to design an analytical serving layers and focus on data engineering considerations for working with source files. The students will learn how to interactively explore data stored in files in a data lake. They will learn the various ingestion techniques that can be used to load data using the Apache Spark capability found in Azure Synapse Analytics or Azure Databricks, or how to ingest using Azure Data Factory or Azure Synapse pipelines. The students will also learn the various ways they can transform the data using the same technologies that is used to ingest data. The student will spend time on the course learning how to monitor and analyze the performance of analytical system so that they can optimize the performance of data loads, or queries that are issued against the systems. They will understand the importance of implementing security to ensure that the data is protected at rest or in transit. The student will then show how the data in an analytical system can be used to create dashboards, or build predictive models in Azure Synapse Analytics. This course may earn a Credly Badge.

## Microsoft Cloud and Big Data

### PL-300T00: Microsoft Power BI Data Analyst / 1550 / Days: 3

This course will discuss the various methods and best practices that are in line with business and technical requirements for modeling, visualizing, and analyzing data with Power BI. The course will also show how to access and process data from a range of data sources including both relational and non-relational data. This course will also explore how to implement proper security standards and policies across the Power BI spectrum including datasets and groups. The course will also discuss how to manage and deploy reports and dashboards for sharing and content distribution. Finally, this course will show how to build paginated reports within the Power BI service and publish them to a workspace for inclusion within Power BI. This course may earn a Credly Badge.

#### MB-230T01 Dynamics 365 for Customer Engagement for Customer Service / 1550 / Days: 3

Microsoft Dynamics 365 for Customer Service offers any organization an opportunity for customer success. Using tools such as automatic case creation and queue management frees up time to dedicate where a greater impact can be made, directly with customers. Our team of globally recognized experts take students step by step, from creating cases, to interacting with customers, to resolving those cases. Once those cases are resolved, students will learn from data analysis the key details to help resolve similar cases faster or avoid new issues altogether. This course may earn a Credly Badge.

#### MB-240T00 Dynamics 365 for Field Service / 1550 / Days: 3

Dynamics 365 Field Service helps organizations better position themselves in the market by providing a variety of tools that assist in identifying and scheduling resources and managing workloads for mobile workers. This course will equip students with the skills necessary to identify and configure the key components that are used to deliver Field Service and mobile solutions. Key topics include identifying the organizational considerations that will drive configuration decisions and common configuration aspects. This course helps students better understand the bigger picture and end goals focused around implementations that aid in designing more efficient solutions that align with customer and organizational goals. This course may earn a Credly Badge.
